

NEW NATIONAL ADVERTISING

Master Replit Website Build Prompt

Use this prompt together with the attached reference image. The image is the visual benchmark; the prompt contains the complete business, UI/UX, service, integration, SEO and quality requirements.

CREATE A BRAND-NEW WEBSITE FROM SCRATCH.

IMPORTANT:

I am providing a reference image with this prompt.

THE ATTACHED IMAGE IS THE MASTER VISUAL REFERENCE FOR THIS WEBSITE.

I want the final website to look VERY CLOSE to the attached reference image in terms of:

- overall layout
- visual hierarchy
- spacing
- typography
- colors
- card design
- buttons
- navbar
- section composition
- image treatment
- border radius
- shadows
- whitespace
- proportions
- overall premium/minimal feeling

Do not design a completely different website.

Do not use the previous website design.

Start fresh.

IMPORTANT:

The existing domain shown above is not currently being treated as a live website.

Do not claim that it is active.

Do not invent any additional business information.

=====

CORE DESIGN DIRECTION

The website should feel:

MINIMAL

SOFT

PROFESSIONAL

PREMIUM

CLEAN

MODERN

TRUSTWORTHY

ELEGANT

The attached reference image uses a bright, clean, spacious visual style. Follow that direction closely.

Use:

- soft white backgrounds
- very light grey sections
- dark navy/charcoal typography
- subtle blue accent
- gentle shadows
- thin borders
- moderate rounded corners
- generous whitespace
- clean grids
- professional photography
- simple line icons

Avoid:

- neon colors
- purple-heavy designs
- excessive gradients
- giant experimental typography
- dark cinematic pages
- excessive glassmorphism
- 3D objects
- flashy effects
- excessive blur
- random animations
- complicated visual effects
- gaming-style UI
- generic AI landing-page aesthetics

The website should look like a professional company website that could realistically be used by an established printing and advertising business.

=====

REFERENCE IMAGE RULE

=====

The attached reference image is NOT just inspiration.

Use it as the PRIMARY VISUAL BLUEPRINT.

Recreate the same visual feeling and composition as closely as possible.

The final website should have a similar:

- header height
- content width
- section spacing
- card proportions
- button shapes
- typography hierarchy
- image placement
- white-space balance
- section rhythm
- color balance

However, implement everything as a REAL RESPONSIVE WEBSITE.

Do not use the screenshot as one giant background image.
Do not create a fake website screenshot.

Build every section using real HTML/CSS/React components.

=====

TECH STACK

=====

Use:

React
TypeScript
Vite
Tailwind CSS
Framer Motion

Use clean reusable components.

Suggested structure:

src/

components/
sections/
data/
assets/
hooks/
lib/

Keep all service information in structured data so it can easily be edited later.

=====

NAVBAR

=====

Create a clean premium navbar matching the reference image.

Desktop:

LEFT:
NEW NATIONAL
ADVERTISING

Use a clean typographic logo treatment.

Navigation:
Home
Services
Our Work
About
Contact

RIGHT:

Navbar requirements:

- white background
- subtle bottom border
- generous horizontal spacing
- clean typography
- compact professional appearance
- sticky while scrolling
- subtle shadow after scrolling
- smooth transition

Do not make the navbar oversized.

Mobile:
Logo
Menu button

When opened:
Create a clean full-screen or large mobile navigation panel.

HERO SECTION

=====

The hero should closely follow the reference image.

Use a two-column layout.

LEFT SIDE:

Small eyebrow:
PRINT • DESIGN • SIGNAGE • ADVERTISING

Main heading:
New National
Advertising

Supporting heading:
Printing, Signage & Design Solutions

Description:
Professional printing, advertising, signage and graphic design solutions for businesses, brands and individuals.

Buttons:
Get a Quote →
View Services

RIGHT SIDE:

Use a premium visual composition related to:

- printing
- signage
- brochures
- business cards
- posters
- print materials
- advertising

The reference image shows a polished real-world printing/advertising visual.
Create a similarly professional visual.

Use realistic high-quality imagery.
Do NOT use cheap-looking stock images.

Add subtle decorative elements inspired by the reference:

- curved soft shapes
- subtle lines
- very light background forms
- restrained typography details

Keep everything soft.

=====
HERO VISUAL
=====

The hero image should communicate the actual business.

Show a tasteful combination of:

- printed brochures
- business cards
- large format print
- color swatches
- signage
- posters
- printing materials

The image should feel like a professional advertising/printing studio.

Do not make it look like a generic office.

Use subtle depth and soft lighting.

=====
HERO TRUST FEATURES
=====

Below the hero buttons, create a small row similar to the reference image.

Three items:

QUALITY PRINTING
Clear & vibrant results

WIDE RANGE OF SERVICES
All your printing needs

RELIABLE SERVICE
Professional service

Use small blue line icons.
Keep these compact and elegant.

=====
SERVICES SECTION
=====

Section heading:
WHAT WE DO

Main heading:
Our Services

Supporting text:
From business cards to large-format signage, we provide complete printing and advertising solutions under one roof.

CTA:
View All Services →

Create a clean grid of service cards similar to the reference image.

Do NOT make huge complicated cards.

Each card should have:

- image
- service title
- short description
- small circular arrow button

Cards should have:

- white background
- very subtle border
- soft shadow
- rounded corners
- clean spacing

Hover:

- very slight image zoom
- subtle elevation
- arrow moves a little
- border becomes slightly stronger

No dramatic effects.

Create a clean six-image grid.

Possible visual categories:

- storefront signage
- banner
- brochure
- business card
- menu
- apparel printing
- packaging
- posters

IMPORTANT:

If real business project photos are not available, use neutral professional mockups.

Do NOT claim that fictional mockups are actual client projects.

Label the section as:

Selected Work

rather than inventing client names.

Hover:

- subtle image zoom
- soft overlay
- title
- category
- small arrow

Keep the effect elegant.

=====

PROCESS SECTION

=====

Create a clean horizontal process section.

Do not add fake social media links.

=====

ANIMATION SYSTEM

=====

Use Framer Motion.

Animation philosophy:
SUBTLE
SMOOTH
PREMIUM

Use:
- fade-in
- slight upward reveal
- gentle image reveal
- soft hover elevation
- subtle button movement
- navbar transition
- smooth scrolling
- section reveal

Avoid:

- excessive parallax
- spinning objects
- 3D animations
- huge text transformations
- glowing effects
- bouncing elements
- excessive blur
- flashy cursor
- unnecessary animations

Every animation should support usability.

Respect:

prefers-reduced-motion

BUTTON DESIGN

Buttons should closely resemble the reference image.

Primary:

Blue filled pill/button

Example:

Get a Quote →

Secondary:

White background

Blue border

Dark text

Example:

View Services

Hover:

- subtle upward movement
- slightly darker/lighter blue
- arrow moves 2-4px

Keep them elegant.

CARD DESIGN

Cards should follow the reference image closely.

Use:

- white surface
- light border
- soft shadow
- rounded corners
- comfortable padding

Do NOT make cards excessively rounded.

Do NOT make cards look like glass.

Do NOT make cards extremely colorful.

BACKGROUND DESIGN

Use mostly:

#FFFFFF

#F8FAFC

#F4F7FA

Text:

Dark navy / charcoal.

Accent:

Professional blue.

Use subtle abstract curved shapes in a few sections.

They should be almost invisible.

IMAGERY

All imagery should feel:
professional
bright
clean
realistic
commercial
premium

Show actual printing-related materials.

Examples:

- business cards
- brochures
- posters
- banners
- signage
- acrylic letters
- printing machines
- paper
- packaging
- apparel
- color swatches

Avoid generic corporate people shaking hands.

Avoid unrelated stock photography.

RESPONSIVE DESIGN

The site must be excellent at:

320px
375px
390px
430px
768px
1024px
1280px
1440px
1920px

Desktop layout should resemble the reference image.

Mobile must be intentionally redesigned.

Requirements:

- no horizontal scrolling
- no broken cards
- no overlapping text
- buttons remain accessible
- images resize correctly
- typography scales properly
- mobile menu works
- contact bar works
- forms remain usable

ACCESSIBILITY

Use:

- semantic HTML
- proper heading hierarchy
- keyboard navigation
- visible focus states
- accessible buttons
- alt text
- sufficient color contrast
- reduced-motion support

SEO

Create strong local SEO foundations.

- fake statistics
- fake reviews
- fake company history

=====

FINAL QUALITY REQUIREMENT

=====

Before considering the website complete:

1. Run the application.
2. Inspect the complete desktop page.
3. Inspect mobile.
4. Compare the website visually against the attached reference image.
5. Fix spacing differences.
6. Fix typography hierarchy.
7. Fix card proportions.
8. Fix button styling.
9. Fix section spacing.
10. Fix image sizing.
11. Fix navbar proportions.
12. Fix footer proportions.
13. Test all navigation.
14. Test WhatsApp.
15. Test phone buttons.
16. Test email.
17. Test quote form.
18. Test mobile menu.
19. Remove horizontal overflow.
20. Check console errors.
21. Check accessibility.
22. Check performance.
23. Remove all placeholder text.
24. Remove all fake business claims.

MOST IMPORTANT:

DO NOT FINISH WITH A BASIC TEMPLATE.

The attached reference image is the visual benchmark.

The finished website should feel like a carefully designed professional website with the SAME GENERAL VISUAL CHARACTER as the reference.

Keep it:

SOFT
MINIMAL
PROFESSIONAL
PREMIUM
CLEAN
ELEGANT

The website should look expensive because of excellent spacing, typography, photography, proportions and attention to detail.

NOT because of excessive effects.

BUILD THE ENTIRE WEBSITE FROM SCRATCH.
