

New National Advertising

Products Catalog Expansion, Sorting & AI Image Generation Prompt

Source of truth: Use this document as the implementation specification for the Products section. Preserve the existing production architecture and website design.

MASTER INSTRUCTION TO REPLIT

Expand and reorganize the existing New National Advertising Products section using the complete catalog below. Add all relevant products, organize them into professional categories/subcategories, apply the required priority order, and ensure every product has a suitable product image. Products must remain separate from Projects and Machines.

1. COMPLETE PRODUCT CATALOG

Core Printing & Branding

- Flex / Large-Format Printing
- Digital Printing
- Offset Printing
- Eco-Solvent Printing
- UV Printing
- Flatbed UV Printing
- Glass Printing
- Acrylic Printing
- Canvas Printing
- Laser Cutting
- Laser Engraving
- Sublimation Printing
- Variable-Data Printing
- Screen Printing
- Sticker Printing
- Label Printing
- Brochure Printing
- Flyer Printing
- Poster Printing
- Catalogue Printing
- Letterhead Printing
- Envelope Printing
- Certificate Printing

- Wedding Card Printing
- Business / Visiting Card Printing
- Book & Binding Services
- Packaging Printing

Signage & Display

- Sign Boards
- Stainless-Steel Sign Boards
- Acrylic Sign Boards
- Acrylic Nameplates
- QR-Code Stands
- Display Stands
- Information Signs
- Highway / Retro-Reflective Sign Boards
- Braille / Tactile Signage
- ACP Boards
- Vinyl Signage
- Sunboard Signage
- LED-Related Signage
- Acrylic Cutting
- Laser-Cut Acrylic
- Name Plates
- Menu / Display Stands

Paper & Corporate Printing

- Business Cards
- Visiting Cards
- Spot-UV Cards
- Gold-Foil Cards
- Letterheads
- Business Letterheads
- Brochures
- Flyers
- Folded Flyers
- Posters
- Indoor Posters
- Newsletters
- Certificates
- Envelopes

- Business Envelopes
- Pocket Envelopes
- Postage Envelopes
- Bill Books
- Notebooks
- Spiral Notebooks
- Thread-Bound Notebooks
- Books
- Magazines
- Booklets
- Bookmarks
- Conference Folders
- Diaries
- Planners
- Calendars

Labels & Stickers

- Die-Cut Stickers
- Sticker Sheets
- Brand-Logo Stickers
- Dome Labels
- Double-Sided Labels
- Bottle Labels
- Wine Bottle Labels
- Beer Bottle Labels
- Cosmetic Labels
- Food-Packaging Labels
- Roll Labels
- Classic Roll Labels
- Transparent Stickers
- Laptop Stickers
- Vinyl Waterproof Stickers
- PVC Wall Stickers
- Vinyl Flooring Stickers
- Designer Stickers
- Special-Finish Labels
- Screen Printing
- UV DTF Stickers

Acrylic Products

- QR-Code Stands
- Acrylic Display Stands
- Acrylic Trophies
- Acrylic Cutting
- Acrylic Name Tags
- Acrylic Name Badges
- Acrylic Keychains
- Acrylic Sign Holders
- Acrylic Menu Stands
- Acrylic Board Nameplates
- Acrylic Night Lamps
- Acrylic UV Printing
- Acrylic Wedding Cards
- Acrylic Badges

Promotional Products

- Metal Ball Pens
- Chrome Pens
- Plastic Pens
- Multiple-Function Pens
- LED-Logo Pens
- Screwdriver Pens
- Mobile-Stand Pens
- Metal Keychains
- Opener Keychains
- Calendar Keychains
- Photo-Frame Keychains
- Mobile-Holder Keychains
- Acrylic Keychains
- Button Badges
- Pin Badges
- Metal Badges
- Acrylic Badges
- Name Badges
- Magnetic Badges
- Corporate Gift Sets
- Fridge Magnets

- Mugs
- Sippers
- USB Pen Drives
- Umbrellas

Apparel

- Cotton T-Shirts
- Polyester T-Shirts
- Cotton / Polyester Mix T-Shirts
- Polo T-Shirts
- DTF T-Shirts
- Vinyl-Print T-Shirts
- Caps
- Lanyards
- Printed Lanyards
- ID Lanyards

Food / Hospitality Packaging

- Paper Placemats
- Catering Trays
- Food Containers
- Flip-Lid Food Boxes
- Deluxe Food Boxes
- Sandwich Boxes
- Sales-Kit Boxes
- Bottle Boxes
- Glass-Bottle Boxes
- Waterproof Food Stickers
- Packaging Labels

Events & Wedding

- Wedding Cards
- Designer Wedding Cards
- Engagement Invitations
- Baby-Shower Cards
- Bridal-Shower Invitations
- Pregnancy Announcement Cards
- Birth Announcement Cards
- Save-the-Date Cards
- Acrylic Wedding Cards

- RFID Cards
- Loyalty Cards
- PVC Cards
- Visiting-Card Holders
- Conference Folders
- Diaries
- Planners
- Sticky-Note Kits
- Desktop Stationery Kits
- Corporate Trophies
- Desk Clocks
- Calendar Products

Specialized Products

- Mouse Pads
- Gaming Mats
- Fridge Magnets
- Canvas Bags
- Aluminium Sublimation Sheets
- Vitrified Tile Printing
- Tile Printing
- Neodymium Magnets
- Stainless-Steel Nameplates
- Stainless-Steel Sippers

- Coffee Mugs
- QR Stands
- Scratch Cards
- USB Drives
- Canvas Printing

2. PROFESSIONAL CATEGORY ORDER

- 1 Advertising, Signage & Large Format
- 2 Business & Corporate Printing
- 3 Paper Products & Stationery
- 4 Labels & Stickers
- 5 Acrylic, Laser Cutting & Fabrication
- 6 Promotional Products & Gifts
- 7 Apparel & Lanyards
- 8 Packaging & Hospitality
- 9 Events & Wedding
- 10 Awards & Recognition
- 11 Office & Corporate Utility
- 12 Specialized Products

3. EXISTING PRODUCT PRIORITY

These eight existing products must appear FIRST in exactly this order. All remaining products follow using the professional category order.

- 1 Signage
- 2 Banner
- 3 Brochure
- 4 Acrylic Clip-on Board
- 5 Calendars
- 6 Business Card
- 7 Letterhead
- 8 Hoarding Banner

4. AI IMAGE GENERATION - REQUIRED FOR EVERY PRODUCT

IMPORTANT: When adding ANY new product from this catalog, automatically generate a professional product image with AI if a suitable real source image is not already available. Do not leave products without images simply because an image was not supplied.

- Generate the image specifically from the exact product name and product details.
- The generated image must visually represent the actual product, not a generic unrelated stock image.
- Use the product name, category, materials, use case, shape/form, printing method, and other available details to construct the image-generation prompt.
- Create clean, realistic, professional commercial product photography suitable for a premium printing/advertising company's website.
- Keep the product itself as the main subject. Avoid random text, fake branding, unrelated objects, or misleading features.
- After generating the image, upload the generated image to the existing production Firebase Storage.

- Save the production Firebase Storage URL in the corresponding Firestore product record.
- Show the generated image in the Admin Panel and on the public Products section.
- Make the image replaceable from the Admin Panel.
- Never use a temporary AI-generation URL, blob URL, local path, base64 data, or Replit-only asset as the permanent production image.
- Do not overwrite an existing verified real product image with AI unless explicitly required. If a supplied/verified product image exists, preserve it.

5. AI IMAGE QUALITY STANDARD

Images should be consistent across the catalog: realistic, clean, well-lit commercial photography, appropriate perspective, professional composition, neutral/premium background, accurate materials and proportions, and suitable for responsive product cards. Do not generate fantasy versions or inaccurate representations.

6. DATA / DUPLICATES

- Inspect existing Products records before creating anything.
- Match new names to existing products and update existing records when they clearly represent the same product.
- Do not create duplicate products.
- Do not delete existing products merely because they are not listed here.
- Normalize obvious spelling/capitalization differences only when they clearly refer to the same product.
- Keep Products separate from Projects and Machines.
- Keep every product editable from the Admin Panel.

7. ADMIN PANEL IMAGE MANAGEMENT - MUST WORK

Fix the current image functionality so I can easily add and replace product images from the Admin Panel. The required production flow is: Admin Panel → select/generate image → upload → Firebase Storage → production Storage URL → Firestore product record → Admin Panel display → public website display. Refreshing the Admin Panel must not remove the image.

- Use the existing production Firebase project.
- Use Firebase Storage for image files and Firestore for product data.
- Allow replacing an existing product image.
- Do not use local paths, blob URLs, temporary URLs, base64 as permanent storage, Replit-only storage, or placeholders.
- Verify the saved image URL after upload and after refresh.

8. END-TO-END VERIFICATION

Test at least one newly added product and one existing product image replacement end-to-end. Confirm: Admin Panel upload/generation → Firebase Storage → Firestore URL → Admin Panel refresh → public website. Also verify the first eight priority products appear in the required order and that all remaining products are present after them.

9. DO NOT BREAK EXISTING WEBSITE

- Do not redesign the current website.
- Do not create a second Products system or Firebase project.

- Do not modify unrelated Services, Machines, Projects, or CMS functionality.
- Preserve responsive desktop/tablet/mobile behavior and the current premium visual design.
- Do not remove working data.

10. COMPLETION REPORT

Before declaring completion, report: total categories processed, total products processed, existing products updated, new products created, duplicates avoided, AI images generated, existing images preserved, images uploaded to Firebase Storage, products still missing images, and the result of the Admin Panel → Firestore/Storage → public website verification.
